MEMORANDUM FOR: Colonel White

1. I checked out your revision of the text on the mission of the Special Support Assistant with [REDACTED], and at first he concurred, with the exception of wanting to substitute as follows: "He serves as the focal point . . . ."

2. A little later he called back and indicated that upon further study he didn't quite see how his office could implement support requirements and suggested that perhaps the following wording would be short enough and satisfactory:

"The mission of the Special Support Assistant, Deputy Director (Support), is to ensure adequate, proper and timely support to the Clandestine Services, serving as the focal point for the Deputy Director (Support) and the Deputy Director (Plans)."

3. Another version of the same idea which he suggested is:

"The mission of the Special Support Assistant, Deputy Director (Support), serving as the focal point for the Deputy Director (Support) and the Deputy Director (Plans), is to ensure adequate, proper and timely support to the Clandestine Services."

4. If you wish to include any of these recommendations in the final text, please indicate in the margin and I will have an appropriate copy developed for forwarding to Regulations Control Staff.
